BOONSBORO HIGH SCHOOL
BOONSBORO, MARYLAND

Principal's Word For The Year

DR. NEWTON

It has been a most rewarding experience to have shared this year with the faculty and students of Boonsboro High School. This high school, including as it does a number of unusual features in its program, is certain to impress a person working in it for the first time.

We have, it is true, been operating under conditions of great overcrowding. This has caused some conditions which are not of the best, but we hope that you have found it pleasant.

This year book is something you will treasure through the years. When you turn to it five or ten years from now, we believe that you will appreciate even more fully than now that the aim of the school has been to prepare you to make the most of your abilities and to find a useful place in the world.

May success and happiness be yours and may others benefit from your services to them.

Last December a group of teachers from other lands visited our country and were entertained in the homes of some of our citizens. These guests, in turn, entertained our teachers with a program at the South Potomac Junior High School.

The day after this program, some of the overseas teachers visited our school and entertained our students and faculty. In the picture above, our guests (front row, left to right) are Mrs. Fakhrol Sheibany, from Teheran, Iran, a secondary school English teacher; Mrs. Pinolphan Kaehacharoen, from Bangkok, Thailand, an English teacher in Sri-Vidhaya School; and Mr. Pan-Pao, from Phnom Penh, Cambodia, a teacher of Cambodian and English in the Ecole Normale, Phnom-Penh. We are sorry that Mr. Oscar Robinson, from Argentina, who was scheduled to come to our school, could not come because of the illness of his wife. Mr. Charles Ridenour, from the Board of Education office, and Dr. Newton, our principal, (back row, left to right) are pictured with our guests.

We are very grateful for the opportunity of seeing first-hand how much alike are the peoples of the world. We feel that these fine representatives have already made a large contribution to the cause of peace and understanding among all mankind.

PLATE XIV — HANDS ACROSS THE SEA

* * * * *

The formal groups on pp 22-30 picture the various student organizations
that help make our school life so interesting and rewarding.

STUDENT COUNCIL —

The Student Council provides a means by which problems relating to student welfare can be discussed, and it also promotes good student-teacher relationships.

STAR STAFF —

Under the watchful eye of Mr. Fehl, this group has done a fine job of publishing the "Star" during the past year.

BAND —

The band, consisting of fifty-two members, participated in the Mummers' Parade and won second prize. They have taken part in several Memorial Day parades, and played for P.T.A. programs and commencement. A few members were also in the county concert and the Symphonic Band.

SAFETY PATROL —

The patrol is important to the welfare and safety of the students at B.H.S.

SENIOR GLEE CLUB —

The Senior Glee Club, under the direction of Mr. Alcorn, is an active club in our school which we are very proud to have. During this school year they participated in many P. T. A. programs, the graduation exercises, and the Christmas program.

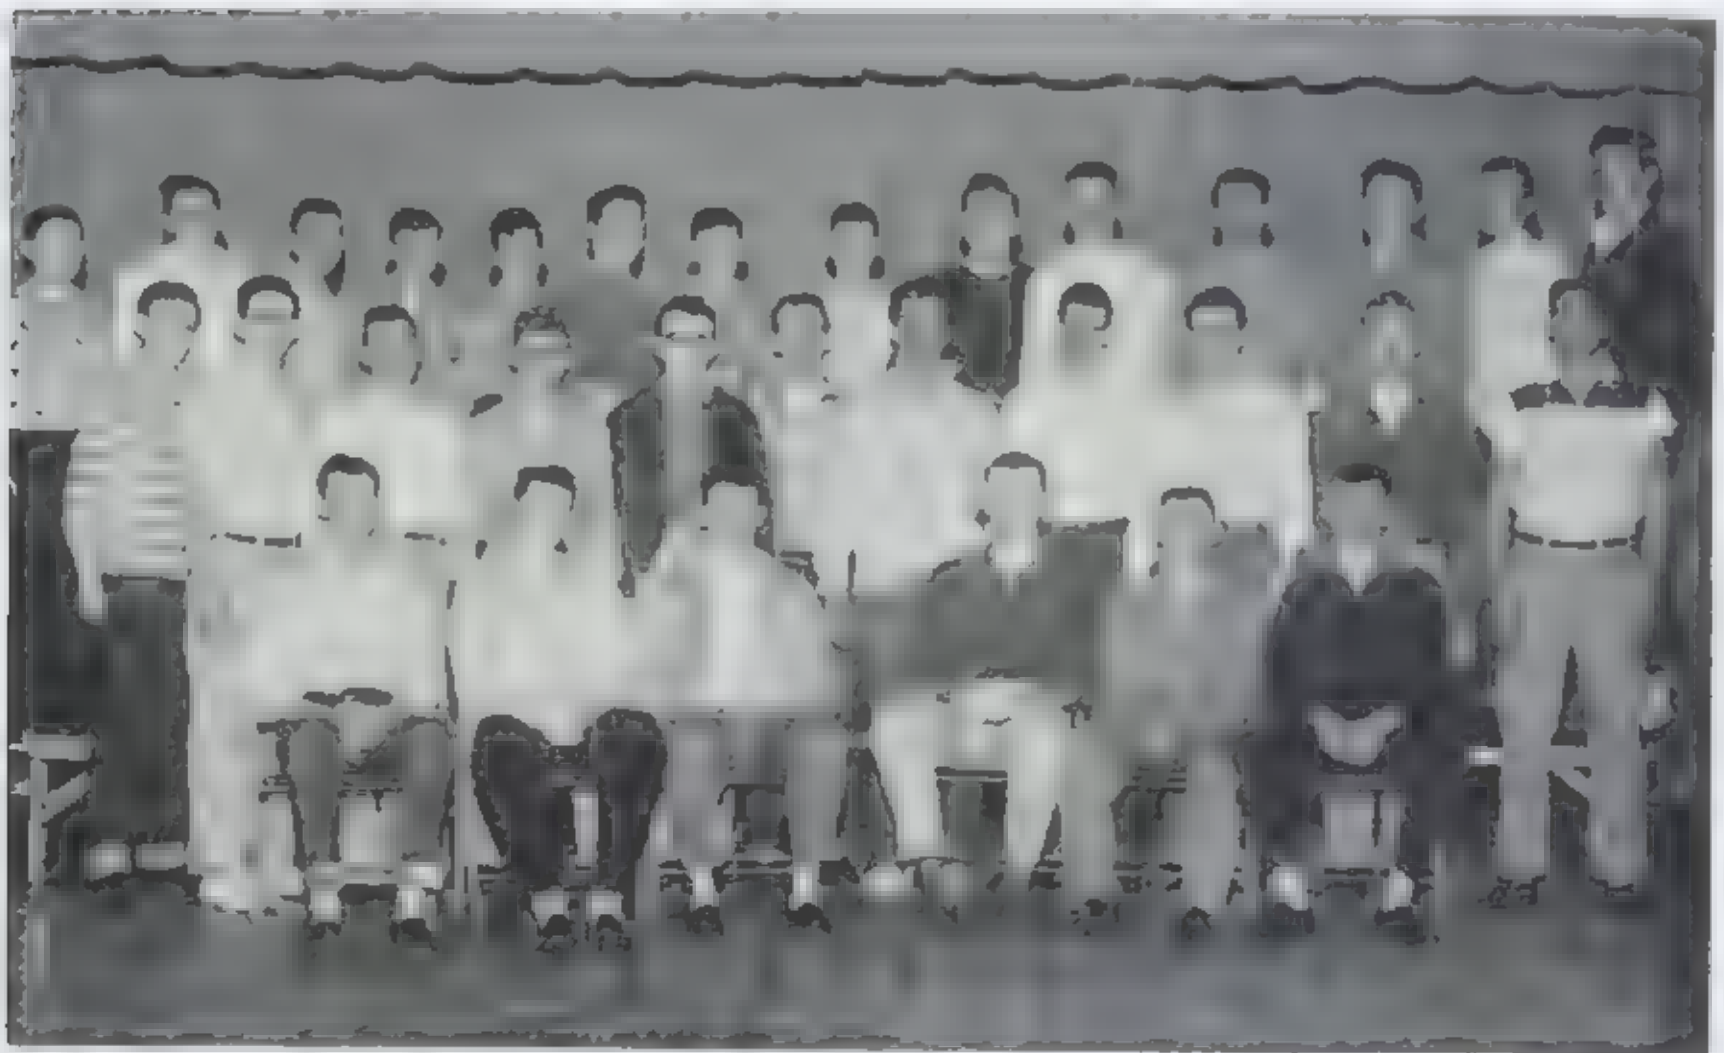

JUNIOR GLEE CLUB —

The Junior Glee Club is composed of selected members from grades seven through nine. They gave a fine performance at the Christmas program. Mr. Wayne Hovermale is now directing the Junior Glee Club and is doing a fine job.

FUTURE TEACHERS OF AMERICA —

This club was organized in 1951 and has become an outstanding activity in B H S. The F. T. A. prepares students for future teaching careers and gives them actual experience through substitute teaching.

AUDIO-VISUAL AIDS —

The Visual Aids Committee gives the boys in B H S an opportunity to operate the different types of projectors and film equipment. This committee also helps to supplement the teaching program throughout the school

FUTURE HOMEMAKERS OF AMERICA —

The F.H.A. was organized in B.H.S. approximately twelve years ago. They strive to promote better family living and to help members understand opportunities open to them in the field of homemaking.

FUTURE NURSES OF AMERICA —

Is intended to better inform the girls on matters concerning a nursing career, and different types of related work.

FUTURE FARMERS OF AMERICA —

These boys are furthering their knowledge in the field of vocational agriculture. They gain actual experience by working on the school farm.

JUNIOR FUTURE FARMERS OF AMERICA —

To help Junior high boys who are interested in making farming their future is the main purpose of the Junior F.F.A.

BOYS' BASKETBALL —

Our boys showed fine sportsmanship through defeat as well as victory this past season. Each game provided plenty of suspense and excitement for the spectators.

BOYS' JUNIOR VARSITY BASKETBALL —

The junior varsity basketball team fought hard through the season and did very well. There's lots of good material here for future BHS varsity basketball.

FIELDBALL —

If success can be measured by the development of sportsmanship and cooperation, the fieldball team can feel that it has been a big success.

GIRLS' BASKETBALL —

Under the coaching of Miss Meador, the girls' basketball team made a fine showing. Each player showed much interest and skill throughout the season.

SOCCKER —

Our soccer team really gave a splendid performance this year and ended up winning most of their games.

BASEBALL —

Baseball has always been a big attraction at B.H.S. and this season the boys made a good showing.

GIRLS' SOFTBALL —

This year's squad was composed of many new girls who promise good results next year. Much credit must be given to our new coach, Miss Meador!
